

Justin Pullman

jedisonpullman@gmail.com | jpullman.com | github.com/jedisonpullman

Education

Iowa State University – Bachelor of Science in Aerospace Engineering

Dec 2023

Experience

Mechatronics Intern, Caterpillar – Peoria, IL

June 2018 – Aug 2018

- Worked in tandem with industry experts to obtain knowledge about the creation of engine models
- Diagnosed and updated customers in service engine control modules

Robotics Coach, Peoria Academy – Peoria, IL

Aug 2019 – Dec 2019

- Instructed 4th – 8th graders in various engineering disciplines to teach the design process and fostered communication through hands-on activities
- Motivated critical thinking by recognizing and rewarding innovative thinking to garner creative solutions from students
- Established a framework for future team success

Projects

UAV System Development

jpullman.com/seniordesign

- Led a 4 person team in the iterative design of a 3 drone, small U.A.V system using SolidWorks
- Incorporated trade studies and product attributes into technical documents
- Presented technical material to clients
- Conducted design reviews using the round robin method
- Designed and 3D printed components for prototyping

IGVC Robot

github.com/jedisonpullman/project

- Designed a wheeled robot using Autodesk Inventor for the Intelligent Ground Vehicle Competition
- Compiled product renderings and bill of materials for prospective sponsors
- Developed a virtual robot with ROS (robot operating system) and Gazebo

Robotic Arm

github.com/jedisonpullman/project

- 3D printed and assembled open-source robotic arm to learn controls and kinematics

Constrained Lamberts Solver

github.com/jedisonpullman/project

- Implemented cutting edge algorithm for solving Lambert's problem in C

Skills

CAD: SolidWorks, Autodesk Inventor, Ansys Mechanical, GD&T

Electrical and Software: C, C++, Python, MATLAB, Arduino, Raspberry Pi

Manufacturing: 3D Printing, CNC Mill, Prototyping

Certifications

- CSWP - Professional Certification in SolidWorks
